Increase Productivity

Customise Preferences Easily

Add or replace an item by customising your POS according to your preference.

Automise Time Slot Promotions

Supports unlimited time slots based on time, day of week, date or a combination of all the above.

Pay-at-Table

Conveniently prints receipt from one device using the latest wireless Credit Card terminal, so staff does not have to walk back to the cashier counter.

Make Operations Easy

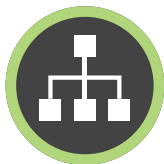

Auto Backup Data

Backup or restore data in less than a few minutes.

Auto Backup Reroute

Auto print to a backup printer when the main printer stops working.

Support Multiple Outlets

Reporting module allows you to view multiple outlets' sales results.

Add-ons to Increase Your Sales

eMenu Solutions

Loyalty Program

Mobile Ordering App

Self-ordering Payment Kiosk

Inventory Management System

Easy Information Retrieval

Auto End-Of-Day Report

Receive end-of-day report via email after outlet closing.

Auto Sales Report

Receive daily sales and void reports after cashier does end-of-day processing.

Auto Inventory Alert

Receive an email alert when inventory falls below a preset amount.

Increase Sales

Upsell Effortlessly

Take advantage of our "Mix and Match" options to upsell.

Enhance Branding

Enhance your branding with a trendy dining experience.

Forge Membership Loyalty

Engage your customers with the latest promotions and run your membership programme flexibly.

Payment Solutions
