### 3-in-1

Self-ordering, self-payment, and loyalty fully integrated into our systems. No hassle, no more headaches!

### Solving Manpower Crunch

Customers can place their own orders and make payment from where they are seated, freeing your staff up for other things that matter.

### Big Data Analytics

Analyse your business using our Business Intelligence to know the history, trends, and customers' spending habits to plan your future and target better marketing.

### Your Brand. Your Customers.

We customise your site and loyalty programs to your brand - you will have full access to your membership database and control over your menus, promotions, and listings.

### Targeted Marketing Campaigns

Our system helps you reach out to customers by automatically sending them personalised promotional campaigns, enticing them to return, increasing repeat sales, and improving customers' loyalty.

### Quick Returns of Investments

Customers bringing their own devices means minimum hardware costs and subsequent maintenance. Say goodbye to silly, additional hardwares that will eventually breakdown.
